No. 15741—*Ed.* 327, *dated* 21*st March* 1902.

The following transfers of Deputy Inspectors of Schools are ordered in the interests of the public service:—

(1) Mr. S. Rangacharlu from the Shimoga to the Kolar District.

(2) Mr. K. Rangappa from the Kolar to the Shimoga District.

No. 15131—*G. F.* 160-92, *dated* 14*th March* 1902.

In supersession of the previous rules on the subject the following revised subsidiary Rules (corresponding with the rules published in Government of India, Home Department, Notification No. 247, dated the 7th June 1901) for the erection, repair, and endowment of monuments in Government Cemeteries, the introduction of which into Mysore from 1st July 1902 has been approved in Residency letter No. 846, dated the 13th February 1902, are published for general information and for the guidance of the officers concerned :—

Notification No. 247, *by the Government of India, Home Department, Ecclesiastical dated Simla, the 7th June* 1901.

The following revised subsidiary rules for the erection, repair and endowment of monuments in Government cemeteries throughout India, except in the Madras Presidency, are published for general information and guidance :—

Subsidiary rules for the erection, repair and endowment of monuments in Government Cemeteries.

APPLICATION FOR ERECTION OF A MONUMENT.

I.—A person desiring to erect a monument should submit his application in the Form A (annexed), with a dimensionized drawing of the monument drawn to scale and a detailed estimate, to the Chaplain or other officer in charge of the Cemetery.

II.—The Chaplain or other officer in charge will (unless the monument is a single stone monument as defined in the margin) send on the application, with the drawing and estimates, with a forwarding letter (Form B annexed) to the Executive Engineer in charge of the Cemetery. The Executive Engineer will fill in column 7 and examine and countersign the drawing and the estimate, and return the application, with the drawing and the estimate, to the Chaplain.

A single stone monument is a monument consisting of a plain cross, head-stone, or slab over a masonry foundation, 3'×2', the total height not exceeding 3 feet in the case of masonry graves and 3 feet 6 inches in the case of non-masonry graves.

The repair of fragile or costly work liable to receive damage cannot be undertaken by Government, and should not be taken into consideration in the estimate of column 7 (*b*).

III.—On return of the application by the Executive Engineer the Chaplain will see that the application in Form A is correctly filled in, sign the memorandum at the foot of the form and forward it with the enclosures to the Archdeacon. If the deceased belonged to some other denomination than that of the Church of England, the chaplain shall obtain a certificate of approval of the design from the Minister of the denomination to which the deceased belonged and forward it with the application to the Archdeacon.

Note.—It is not compulsory for endowment to be made in any cases of monuments erected to their deceased comrades by British soldiers or non-commissioned officers.

IV.—The Archdeacon will permit the monument to be erected or refuse to do so. If permission is given, the Chaplain will advise the applicant of the sanction in Form D (annexed) and instruct him to pay the amount of the endowment calculated as in Rule VI to the Executive Engineer, who will grant the applicant a receipt in Form C (annexed).

V.—The Chaplain must inform the Executive Engineer in Form D (annexed) as soon as the monument is ready for erection, and the latter will see that it is set up in accordance with the drawing and the estimate sanctioned and will enter the monument upon his list for repairs by the Public Works Department. The Chaplain will in communication with the Executive Engineer, send in July every year to the Archdeacon a list of the monuments erected and endowed during the year ending June 30th, together with the amounts of the endowment fees.

AMOUNT OF ENDOWMENT.

VI.—An endowment fee of Rs. 15 will be charged when a person wishes to endow a single stone monument. The payment will not be compulsory.

Other monuments shall be divided into two classes—

(1) plain and solid monuments, which are likely to require only occasional repair; and

(2) elaborate monuments and other monuments which are likely to require special attention or frequent repair.

An endowment fee of Rs. 30 shall be charged for monuments of the first of these classes, and of Rs. 75 for monuments of the second class. The classification will rest with the Executive Engineer, but any person objecting to his decision may appeal to the Superintending Engineer. With the sanction of the Superintending Engineer a higher fee may be charged in cases where fees on the classified scale are clearly insufficient.

Note.—In the case of a child's monument these fees may be reduced to Rs. 20 and Rs. 50, provided that the monument does not exceed 5×3.

No addition to an existing monument in a Government Cemetery will be allowed beyond mere lettering on existing slabs, head-stones, or crosses, unless the whole monument is endowed.

VII.—The endowment is intended to cover the expense of ordinary annual maintenance, re-lettering, and repairs, but not the risk of accidents due to floods or earthquakes or other extraordinary causes. It is open to any person to provide for extraordinary repairs by making a special endowment in addition to the ordinary endowment fixed by the Executive or Superin-

tending Engineer under Rule VI. This special endowment must, however, be limited to the amount necessary to cover such work as the Government officers can undertake to execute.

VIII. When an endowment is paid to the Executive Engineer in accordance with Rules, IV and VI, the amount must be entered in the Divisional Cash Book as a deposit received and paid into treasury with a Remittance Note in Form G (annexed) for credit to Civil Department. The Executive Engineer will forward the Treasury Officer's receipt with his monthly accounts to the Examiner of Accounts in support of the debit to "Deposits," a note to the effect that this has been done being entered in red ink across the block foil of the Remittance Note.

The Examiner will from these receipts maintain a Register in form H (annexed) showing the endowments for each Cemetery in his Province. The Comptroller will credit to a head Cemetery Endowment Fund under the major head Savings Bank Deposits—Bank Accounts all sums received on account of these endowments but will show no details regarding the Cemeteries.

After the amount has been paid into the treasury the Executive Engineer will enter it in the Register of Endowments Form E (annexed) (Part I).

IX.—The Executive Engineer shall maintain an account of all ordinary and special endowments in Form E (annexed) (Part II). A separate ledger account shall be opened in Form E (annexed) (Part III) for each monument for which a special endowment exceeding Rs. 25 has been made under Rule VII.

Note.—The provision as to separate accounts should be applied as far as possible to endowments made prior to the issue of these rules.

X.—The interest calculated under Rule XI on the deposit shall be used in meeting the expenditure for the repair of those manuments for whose preservation deposits have been made. In no circumstances should the capital sum be applied to meet such expenditure, nor should the interest be separate for each monument. The interest accruing on the deposits shall form a common fund to be used exclusively for the repairs of all endowed tombs: provided that the interest on deposits for which separate accounts are opened under Rule IX shall be used exclusively for the particular monument on account of which the deposit is made.

If a monument becomes so damaged as not to admit of repair, the Chaplain shall communicate with the friends of the deceased, or when such communication is not possible, advertise three times in the *Mysore Gazette*: and if no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the Chaplain may decide to be necessary for the maintenance of the Cemetery in decent order: provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the Cemetery and shall be carefully preserved.

XI.—Joint estimates shall be framed in October of each year by the Executive Engineer and the Chaplain, or other officer in charge of the Cemetery, of the cost of repairs of endowed tombs, during the following official year, and the aggregate of the sums so estimated shall not exceed the estimated interest at $3\frac{1}{8}$ per cent per annum on the capital sum deposited up to the 30th June preceding, plus the unspent balance at the end of the previous year. The Executive Engineer should budget annually for the grant required; such grant would be entered in a lump sum under the head "Civil Works" without any distinction between ordinary and special endowments.

XII.—The Comptroller will in his final accounts for June debit to 14—interest, by credit to the Public Works Department the interest at $3\frac{1}{8}$ per cent, calculated on the amount standing at credit of the deposit head on 30th June. On receipt of the credit the Examiner of Public Works Accounts will distribute the amounts between the several Cemeteries and advise the Executive Engineer concerned of the amounts so credited. On receipt of such intimation the Executive Engineer will credit the amount in his divisional accounts as Public Works, Revenue under the head "Interest on Endowments for Repairs of Monuments" and then fill in the interest column in Form E (Part II).

ENDOWMENT OF EXISTING MONUMENTS.

XIII.—When application is made for the endowment of an existing monument, the above procedure should be followed as far as practicable. The application in Form A must be submitted to the Chaplain or other officer in charge, and forwarded by him to the Executive Engineer. The latter, besides framing an estimate of annual repairs, must estimate the cost of placing the monument upon a suitable foundation, if he is satisfied that such a foundation does not exist. The application should be sent to the Archdeacon, and with his consent the monument will be brought on to the books of the Public Works Department. The cost of the foundation should be paid over to the Executive Engineer, who will carry out the work without delay.

XIV.—In order that the Government may know that the tombs are kept in proper repair an Annual Report in Form F (annexed) should be forwarded as soon as possible after the close of the accounts for a financial year, by the Executive Engineer with respect to their condition, for each Cemetery, to the Examiner of Public Works Accounts, who will consolidate the returns so received and render a general return to Government. The account will merely show the totals for each Cemetery as taken from the Executive Engineer's accounts.

The reports sent to the Examiner should contain remarks, both by the Chaplain and Executive Engineer, as to the state of the tombs for which endowments have been made.

Note.—The foregoing rules are applicable to Cenotaphs erected in Church compounds, but the previous consent of the Local Government to the construction of a Cenotaph is in every case necessary.

FORM A.

*Application to erect a Monument in the Government Cemetery at*_____

(Referred to in Rules I, III and XIII.)

1. Name and address of the applicant.
2. Name of the deceased.
3. Denomination to which he belonged.
4. Plot-line and number of the grave.
5. Whether the existing grave is a masonry grave or not.

   (*a*) In the case of a masonry grave give a dimensioned drawing of its cross-section (showing thickness and height of walls, maximum width between walls, and thickness of the arch) and state its length of inside walls and the nature of the materials used in its construction.

   (*b*) In the case of a non-masonry grave, state the depth of the grave.

   And the depth from the ground level to which it is intended to dig to provide the necessary foundation.

6. Dimensions of the proposed monument.

   (*a*) Length, breadth, height from the ground level.

   (*b*) Kind of stone used in each part.

   (*c*) Whether the letters of the inscription are to be leaded, painted or merely cut.

   (*d*) Proposed cost (in words.)

   (*e*) Proposed inscription.

   (*f*) Name of the maker of the monument.

   (*g*) Whether it is intended to endow the monument.

Signature of the applicant.

Date

---

7. Certified that—

   (*a*) The $\frac{\text{existing}}{\text{proposed}}$ foundation is adequate.

   (*b*) The $\frac{\text{proposed}}{\text{existing}}$ monument comes under class_____

   (*c*) The estimate is approximately correct and corresponds to the drawing.

   (*d*) Amount of endowment required.

Executive Engineer.
